

Topic: Artificial Intelligence

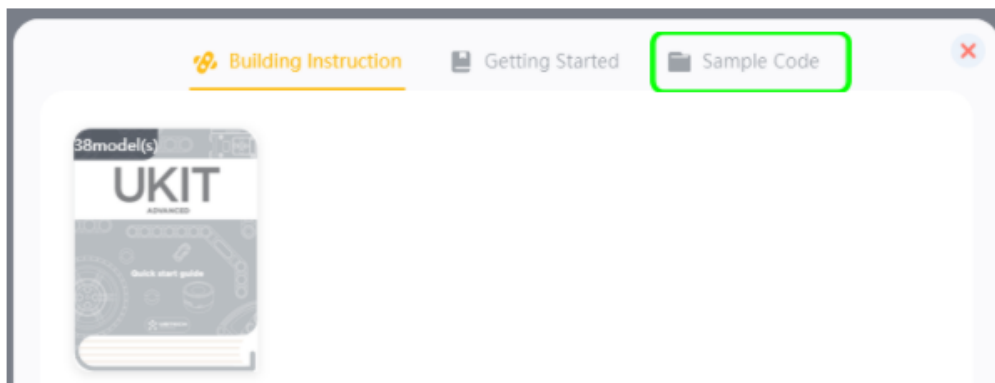

Short Description: In this lesson, you will load a sample chatbot code, observe what happens when you run the code, and then revise it.

Steps:

1. Open [uCode](#) in a web browser. Google Chrome is preferred.
2. Click **Resource Center** at the top of the screen. Note, this might appear as a pop-up when you initially open uCode.

3. Click on **Sample Code** and then **Animation**.

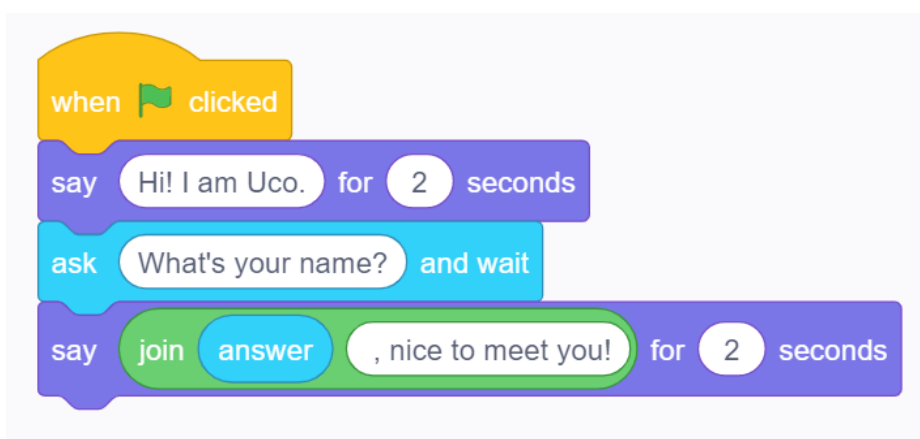

4. Select the **Uco Says Hi** tutorial.

- Click the green flag to run the sample code for this tutorial.

- You can adjust the sample code by changing the text in the white spaces or add/remove blocks. Spend some time making modifications to the sample code to create a more interactive chatbot.
